

# ALIEN LEGENDS

LEARN MORE

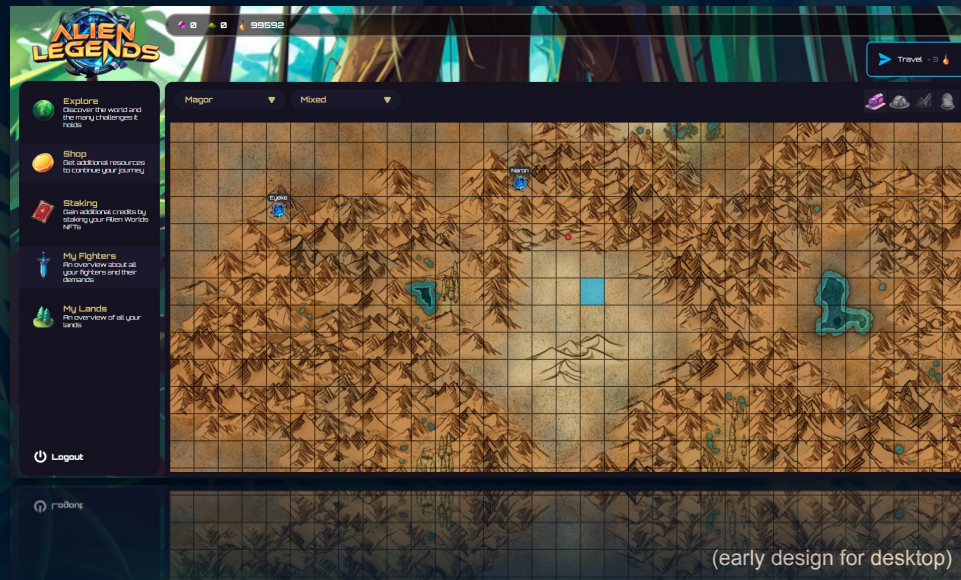

# What is Alien Legends

*Alien Legends immerses players in an exciting world of exploration, squad building and interplanetary combat. Players can engage in PvE and PvP battles and compete in tournaments across the federation's six planets. They scout for new fighters, train them, and build their ultimate team to dominate in different combat categories.*

*All gameplay takes place within arenas and other infrastructure built by landowners on their lands. Players can further utilize their Alien Worlds NFTs in combat, mining, and competitive staking to gain significant advantages in the game.*

*The intended release is in the fourth quarter of 2025.*

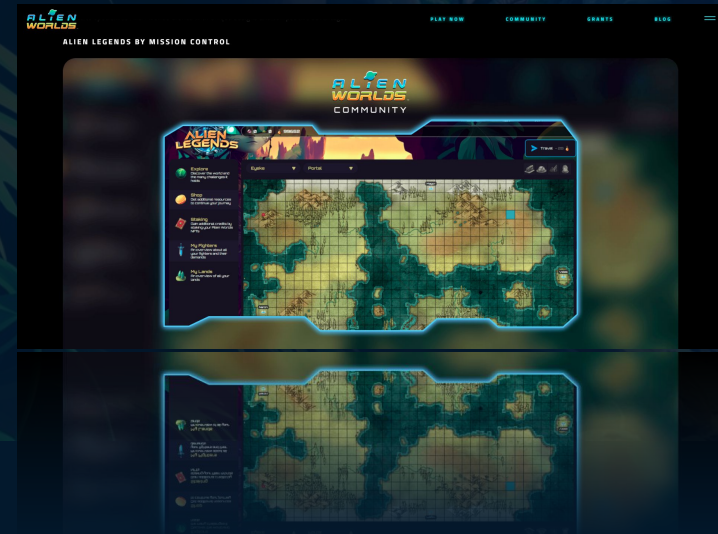

(early design for desktop)

# Design Philosophy and early mentions of Alien Legends

- ❖ Create a fun and long-lasting on-chain gaming experience within the Alien Worlds Metaverse
- ❖ Use planets, races, and lore from Alien Worlds as the gaming environment
- ❖ Playable on mobile and desktop
- ❖ Stand-alone alternative to the AW mining game
- ❖ Reward model incentivizes deep and lasting involvement, with PvE and PvP game modes
- ❖ Increase utility of the Alien Worlds NFT collection, including lands, tools, arms and crew
- ❖ Character development supports long-term player engagement

## Official Alien Worlds Blog

<https://alienworlds.io/blogs/the-year-of-games-and-whats-next-for-alien-worlds>

# Key gameplay features

- ❖ Develop lands
- ❖ Recruit fighters
- ❖ Build battle group synergies
- ❖ PvE battles
- ❖ PvP Arena Domination
- ❖ Big weekly tournament
- ❖ AW NFT utility
- ❖ Fighter Market

# Alien Legends December 2024 Worker Proposal content

Four weeks of further ale development, including at least the following items:

## Smart Contract

- Player Signup
- Basic Player Data Storage
- Land Registration
- Land Configuration
- Player Travel
- Portals and Portal Usage

## Project Management

- First Dacoco Meetings
- Process Dacoco Feedback

## Figma Design

- Landing Page
- Login Screen
- Signup Screen
- Map Basics

## Frontend

- Landing Page
- Login Screen
- Signup Screen
- Map Basics

# What is Mission Control

*The Team behind Mission Control are the developers of Alien Legends.*

*Mission Control is a weekly questing platform set out in the Alien Worlds Metaverse, adding additional gameplay and reward elements to it.*

*A basic outline for the current features of Mission Control can be found here:*
